

Your Vendors Are Overcharging You. Your Team Is Doing Work a Tool Should Do.

Soltas Group fixes both: custom procurement automation built for manufacturers, plus cost savings where you pay only on results.

CORE PROCUREMENT TOOLS

VaultPull | Engineering Drawing Retrieval

400+ drawings retrieved in under 60 seconds

Pulls PDF, DXF & STEP files in batch from SolidWorks / Autodesk PDM vaults, replacing hours of manual file hunting for quoting and supplier packages.

SpendLens | PPV, Spend Analysis & Vendor Categorization

Your complete vendor spend picture in one tool

Tracks purchase price variance, flags hidden cost increases, analyzes vendor spend, and categorizes suppliers. Turns raw invoice data into insight you can take straight into negotiations.

DrawingIQ | AI Drawing Review & Data Extraction

Trained to read customer drawings and pull the data your team needs

100% LOCAL

Reviews engineering drawings automatically, extracting materials, dimensions, features, and part attributes. Eliminates hours of manual drawing review for supply chain and quoting teams.

Deployed entirely on your systems. No cloud processing, your drawings and IP never leave your network.

CUSTOM CLIENT PROGRAMS
